Why HQCPL?

This page explains everything you need to know when choosing a consulting partner for your next management programs and training initiatives.

Wide Industrial Experience

At HQCPL, our consultants have gained wide experience in setting up and maintaining management systems for both manufacturing and service industries. These industrial experience together with the relevant academic qualifications, assure clients of our competency and confidence in working towards the organisation's objectives.

Registered Lead auditor

Our trial audits are conducted by Registered Lead auditors (IRCA, QSA or JRCA registered) who have accumulated years of experience in systems auditing.

Registered Safety Officer

With the commitment to help clients better in both training and implementing the OHSAS 18001, HQCPL realises the need to equip our consultants with basic knowledge of the local legislative requirements as well as safety methodologies.

Customized in-house Training Course

We specialize in providing customized in-house training relating to the (**ISO 9001, ISO 14001, OHSAS 18001, ISO / TS 16949, ISO 13485, AS 9100, AS 9120, ISO 17025, ISO 50001, ISO 22001, ISO 27001 & GDPMS**). The in-house training programs are designed to meet clients' specific requirements, integrate clients' existing procedures and enhance participants' understanding of their own systems.

Group Consultancy Package

For clients with associated companies, they can choose to engage our consultancy or training services on a group package. This helps to reduce the costs and resources and at the same time provides a channel for information sharing and benchmarking among various organisations.

HQCPL Training and Education Meeting the new challenge...

Much has been written about the need for competitiveness. The rapid development of new technologies and eCommerce are eroding barriers to international trade and investments. With this growing trend, both the public and private sector are finding themselves striving to succeed against increasing difficult odds.

 Head office:
Singapore

 Regional offices:
Malaysia & India

The new challenge for all companies today is to achieve international competitiveness. Companies are continuously in search of external resources to address the limited resources and technical know-how that they are facing.

At HQCPL, we believe strategic partnership is the key to succeed in the global competitive challenge. Bringing resources together and the transfer of technical know-how through our value-added consultation and training services, we can improve performance and create new opportunities together.

The Long awaited ISO 9001:2015 and ISO 14001:2015 had been released on 15 Sept 2015. Certified clients are given a grace period to upgrade to the new version. With our expertise and many years of experience in the ISO industry in Singapore, Malaysia, India and Brunei, programs and plans can be put in place as early as this year to Ensure that you have a smooth conversion.

From training the Management team on the new requirements and to understand fully what the Risk Based thinking approach means, to how leadership can be demonstrated more effectively to comply with the new standard requirements, our services are a must for those who are tasked to implement or upgrade to the latest revision.

We also provide in-house workshop to guide and assist clients in the upgrade exercise. Workshop can be customised to meet different client requirements based on the relevant activities, level of Risk at the various processes, and the risk appetite that is inherent for that particular industry or context of the Organisation.

We adopt our own customized methodology termed as '**UGRAP**' to ensure that this 2015 transition will be an enjoyable & value added one for you.

Audit Transition / Implementation / Upgrading Workshops

Our Customized 2015 service package Include:

- 2 days Auditor Transition to meet 2015 requirements.
- 1/2 day awareness training for top management & to prepare for audit interviews.
- 1 day implementation workday for ISO Committee.
- 1 day business Continuity management to address Risk & Opportunities.
- UGRAP** - Fully Supported package until certification.

UGRAP - Up Grading with Risk based Approach Process.
